

DALLAS / LUBBOCK**Phase II –Design Development*****Assigned Tuesday, March 7, 2005******DUE FRIDAY, March 25, 2005 at 12pm***
(Posted to student folder on website)

There will be no extensions on this deadline as it is essential to get to this point in order to complete the project by the deadline for final review on April 29 in Dallas.

You have developed three schematic options and had those reviewed for comment. Based on the comments, select the final schematic option to develop through to a final project for completion. The final project will include not only the complete development of this building, but options for addressing the urban context ...specifically, the connections between the historic downtown, clocktower, DART station, project site (Cultural Museum) and the Centennial Park.

The following will be provided and presented posted to the student folder by the deadline:

- 1) Completed morphological study diagram. (Previously completed, but required in set)
- 2) Completed schematic diagramming. (Previously completed, but required in set).
- 3) Completed program. (Previously completed, but required in set. Refine as necessary).
- 4) Schematic floor plans. (Previously completed, but required in set. Refine as necessary).
- 5) Schematic site plan. (Previously completed, but required in set. Refine as necessary).
- 6) Axial connection diagram (Context). NEW
- 7) Schematic elevations. NEW
- 8) Schematic sections (longitudinal and transverse) NEW Three diagrammatic detail drawings: 1) connection between new construction and existing construction. 2) exterior wall condition. 3) roof detail. NEW
- 9) Preliminary cost analysis. NEW
- 10) Preliminary Power Point Presentation. NEW (It is best to think about the project in a presentation format (Power point) since you will be providing this at the final review).

NOTE:

Scale should be determined to comply with ability to read drawings clearly in 8 ½"x 11" booklet format.

NOTE: Remember, since we do not meet at all class times, you will be expected to submit the physical document by the deadline of studio final review on April 29, 2005. This means, all physical drawings, models are required to be submitted in physical format in addition to the required pdf posted to your student folder.
