

Houston

International Coffee Building

Due Friday, Sept. 22, 2006

Noon

(Posted to student folder on website)

Phase I – Project Analysis & Research

Assignment #2 – Site Analysis, Needs Identification Study and Initial Project Programming

There are three segments to this next portion of the project.

Part I : Based on Research Information and Site Investigations – develop an initial site analysis including a list of all items identified by the student as relevant site information.

Send proposed list to professor by Sept. 13, 6pm for approval. List may be sent via email.

Part II: Needs Identification Study. Based on the site investigations, analysis, program information and research, identify a comprehensive list of needs to address and initial ideas about opportunities and/or obstacles that relate to each need.

Part III: Provide Initial Programming based on models learned in previous programming courses or professionally acquired programming standards.

What to Present:

Power Point Presentation or PDF presentation of complete project.

Posted confirmation of project to student folder on course website.
