

ARCH5604.....Spring 2008

MaryAlice Torres-MacDonald, assoc. professor
ma.torres-macdonald@ttu.edu

E-Studio/ Urban Design Studio

Initial Assignment:

Due Jan 18 6pm

You have discussed your project with your instructor. You now need to pin down the specifics of your project. Since you each have a separate project, I want you to approach this with the understanding that we want each of you to have a good grasp of each others project proposals.

You will Submit:

Project Description: List your proposed project here, including any and all details relevant to explaining your project.

Outline a studio work plan. – this will be a calendar of proposed stages for progress. As each of you has a different project, it will not work well to have you all have the same deadlines throughout the semester. There will be exceptions to this which will include a mid-semester review and your final review.

Create a power point presentation of your project proposal – No more than 10 slides. This will be posted to the CoA website at: <http://www.arch.ttu.edu/courses/2008/spring/5604/252/>

Create your studio e-sketchbook. You will need access to a scanner throughout the semester to be able to scan your progress work. A small format scanner will work fine. Work from an 8 ½ x 11 format for your sketchbook. This does not apply to your studio project work submitted. This can be submitted as a pdf and can be cumulative throughout the semester.

Deadline: 6pm Friday, January 18
