E-Studio/ Urban Design Studio

e-Sketchbook

Postings:

Every Wednesday by 9pm.

WHAT IS IT?

Each week you will post an electronic sketchbook which will include the progress you are making in your semester project. This should be thought of as you would with any physical hard sketchbook. Student will keep their notes, such as: thoughts about the project, ie-concerns, questions, ideas; diagrams; progress sketches.

This enables me to see your progress in another format and keep up with your work.

This component is likely best posted as a weekly entry so that it isn't so large you have difficulty posting it.

Save each file as follows:

e-SketchbookEntry(weeks date as monthdayyear)StudentInitials

Ex:

e-SketchbookEntry011808AT

At the end of the semester, if we printed out each of these, we would have a complete sketchbook that reflects your progress on the project throughout the semester.

Sometimes it may be more about words, while as you progress, it will likely include more sketching and diagrams.
